# Smart Cities & Urban Digital Twins

Visualization Twin – Umhlanga Proof of Concept

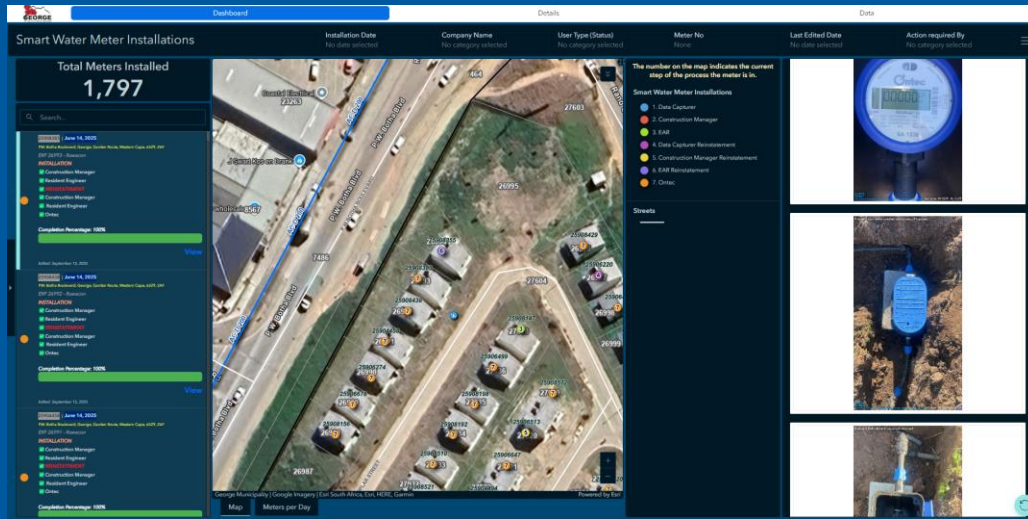

Digital Twin – Economic Hub of South Africa Transforms the Way it Serves Residents

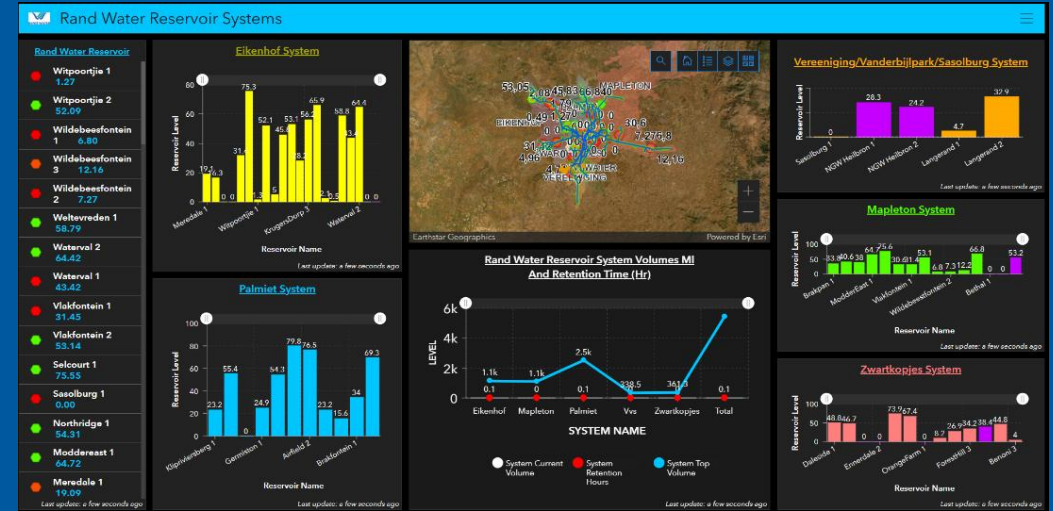

Knysna Municipality - Informal Area 3D Visualization

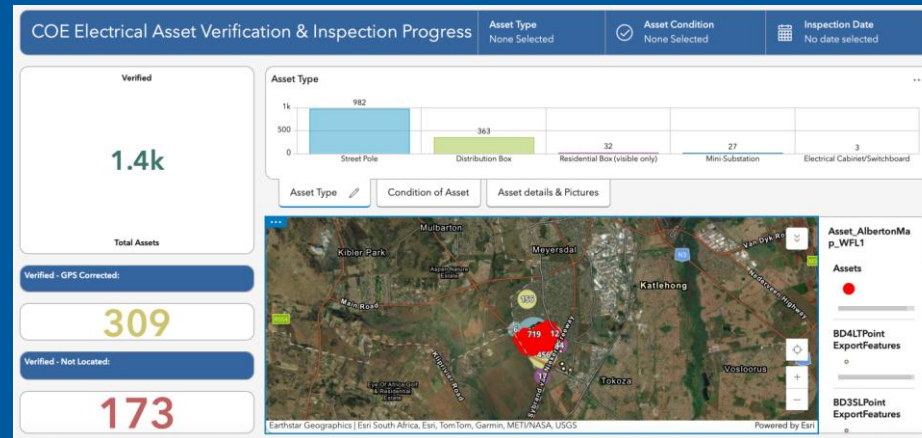

# Utilities & Infrastructure Management

## George Municipality - Smart Water Meter Installations – Digital Form, Smart Workflow, Intelligent Billing

## Rand Water - Water Cycle Management – Customer Water Use Efficiency, Live Reservoir Monitoring

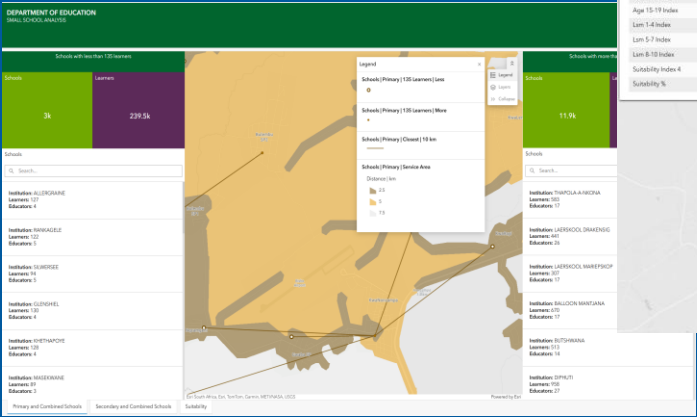

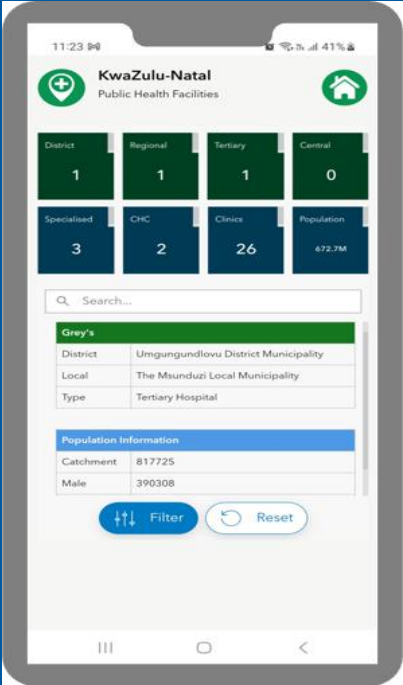

City of Ekurhuleni -Electrical Asset Verification &amp; Inspection

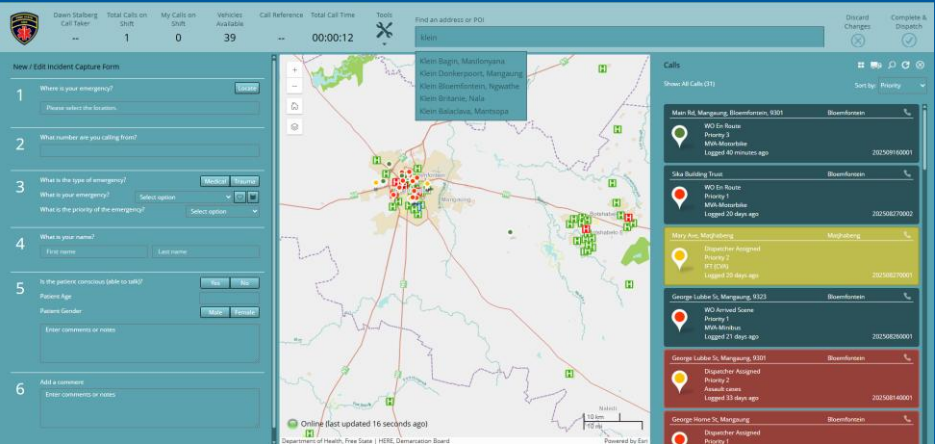

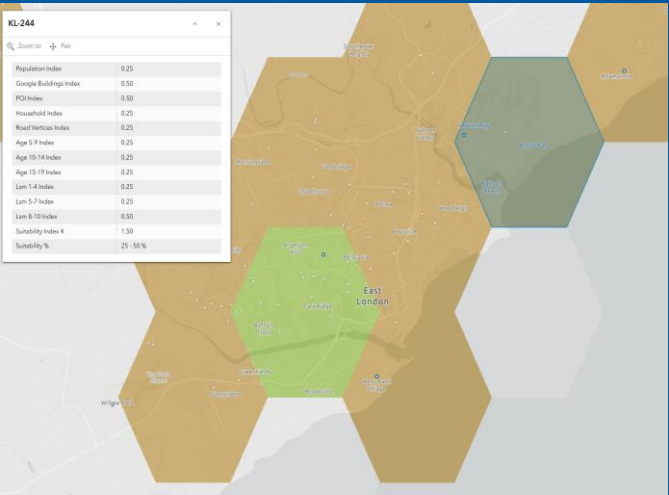

# Public Health & Social Services

KwaZulu-Natal Dept of Health  
Public Health Facilities & Data Explorer

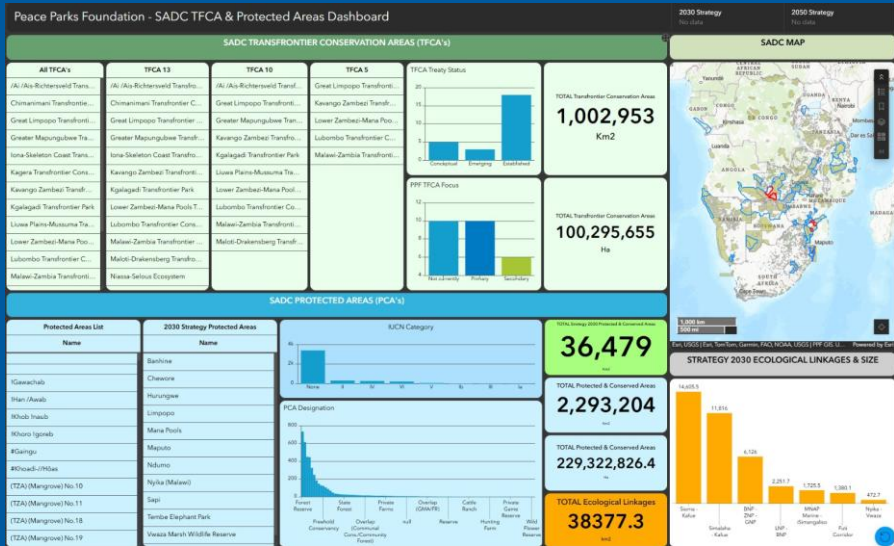

National Education  
Small School Analysis – Suitability < Pop, Household, Age, Income etc.

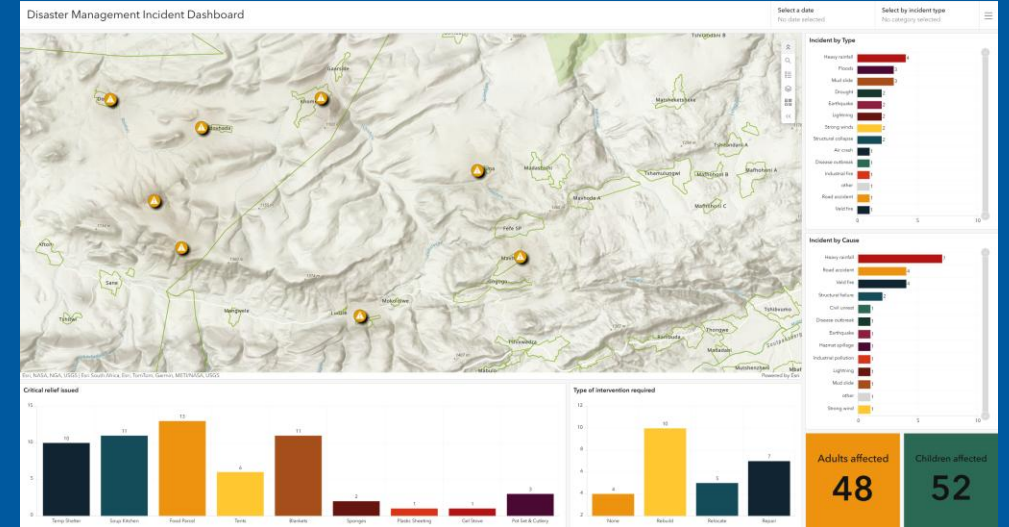

Free State Department of Health  
Emergency Management System – Call Tracker, Dispatcher

# Environmental Protection & Disaster Management

# Peace Parks Foundation Disaster Management

## Vhembe District Municipality Animal Sightings & Protected Areas – Protected Areas Classification, Animal Sightings from Flights

The figure displays three maps of the Florida service area, illustrating different data layers and their impact on the service area boundary.

- Top Map (Transaction Origination):** Shows the service area boundary (Florida service area, 10km) overlaid with a map of the Florida service area. The legend indicates the following locations and service types:
  - Absa PoP:** Branch (Red dot), Potential Site (Yellow dot), Sales and Service Outlet (Orange dot), Absa\_ATMs (Green triangle), Shopping Centre (Blue square), Taxi Rank (Blue square).
  - Transaction Origination:** Florida (Green), Clearwater Mall (Purple), Cresta (Blue), Dobsonville (Red), Westgate (Green), Total (Grey).
- Middle Map (Transaction Density):** Shows the service area boundary (Florida service area, 10km) overlaid with a map of the Florida service area. The legend indicates the following locations and service types:
  - Absa PoP:** Branch (Red dot), Potential Site (Yellow dot), Sales and Service Outlet (Orange dot), Absa\_ATMs (Green triangle), Shopping Centre (Blue square), Taxi Rank (Blue square).
  - Transaction Density (Low Inc):** Sparse (Light Green), Dense (Dark Green), Florida service area (10km) (Grey).
- Bottom Map (Absa PoP):** Shows the service area boundary (Florida service area, 10km) overlaid with a map of the Florida service area. The legend indicates the following locations and service types:
  - Absa PoP:** Branch (Red dot), Potential Site (Yellow dot), Sales and Service Outlet (Orange dot), Absa\_ATMs (Green triangle), Shopping Centre (Blue square), Taxi Rank (Blue square).
  - Transaction Density (Low Inc):** Sparse (Light Green), Dense (Dark Green), Florida service area (10km) (Grey).
