The quest for the next generation GISc Practitioners

- Look at it from a "HR consumer" point of view
- What do you expect from a professionally registered person
 - Competent Person
 - Critical Thinking (how you interact, and how you question the answer)
 - Seek own solutions first
 - Function independently
 - Find solutions to new unimaginable challenges
 - Professional (Practitioner, Technologist or Technician)

HUMAN-MACHINE COLLABORATION SPECTRUM

Amplipractor

Core stance: Competence and accountability first; Al as amplifier.

In short: Al as a force-multiplier, not a crutch.

Augmentarian

In short: Al as a for intellectual aud

Skillwright

Core stance: Craftintegration of AI into

In short: Al as part craftsmanship of s

Auxilist

Core stance: Al auxiliary, not an e

In short: Al as a in service of huma

Cogmentor

Core stance: Al as cognitive developm

In short: Al as a m

Amplipractors

Meaning: A competent professional who uses AI to amplify their own skill, judgement, and accountability, not to replace them or pass off unearned work.

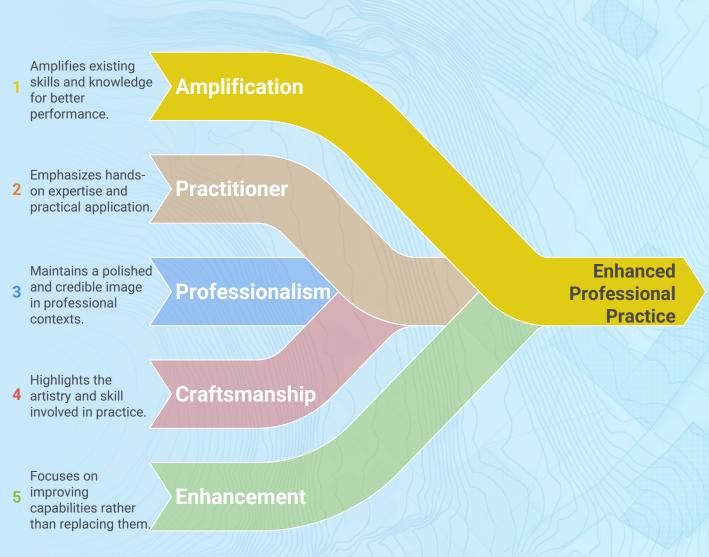

Why it works:

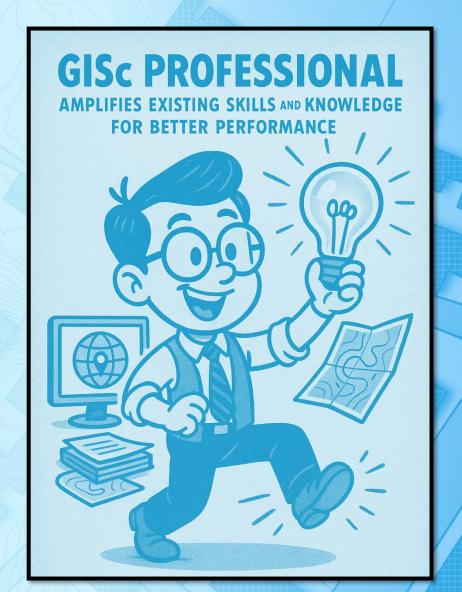

Built from ampli- for amplify, plus practitioner to read cleanly in professional settings, signals practice and craft, and implies enhancement rather than outsourcing.

Word family:

- Amplipractic practice, "amplipractic methods"
- Amplipractice, the act, "to amplipractice responsibly"
- Plural, amplipractors
- · Verb, to amplipractise, "we amplipractise with audit trails"

Amplifies existing skills and knowledge for better performance.
